STATE BOARD OF EDUCATION

Regents of the University of Montana, ex-officio

The State Board of Education is composed of eleven members including the governor, the state superintendent of public instruction and the attorney general as ex-officio members. The governor appoints, by and with the consent of the senate, the remaining eight members. These appointments must provide for equal representation between the first and second congressional districts and not more than four members may be from the same political party or organization. The term of office for the appointed members is eight years.

Acting on the recommendation of the state superintendent, the Board establishes standards for the accreditation of elementary and secondary schools, and rules and regulations for the issuance of teachers' certificates as prescribed by law. The control and supervision of the University of Montana, of the Bureau of Vocational Rehabilitation, and of Montana custodial institutions concerned with the education and welfare of youth are vested in this Board. In addition, the Board approves certain scholarships provided for by law and serves as the State Board of Vocational Education.

Under legislation enacted in 1959, the State Board of Education serves ex-officio as Regents of the University of Montana. The executive secretary of the University of Montana is secretary of the Board as Regents.

PUBLIC ELEMENTARY AND SECONDARY SCHOOLS

Montana school districts are classified according to population as first, second or third class districts.

A first class district has a population of 8,000 persons or more, and is administered by a superintendent under the direction of a seven-member board of school trustees.

A second class district has a population from 1,000 to 8,000 persons and is administered by a superintendent under the direction of a five-member board of school trustees.

A third class district has a population of less than 1,000 persons and is administered by a board of school trustees consisting of three members. A third class district with more than one teacher may employ either a superintendent or principal, or both.

In addition to these districts, Montana has sixteen county high schools. The county high school is administered by a principal under the direction of a county high school board. This board consists of seven members; the county superintendent and six persons appointed by the county commissioners. Section 75-4103, Revised Codes of Montana, 1947, was amended by the 1959 legislative session to provide that trustees of county high schools may be elected if a majority of the voters in the county high school district favor changing the method of selection. This permissive legislation provides for district representation and removes the county superintendent from the board of trustees.

The county high schools were established on a county basis when the population and taxable valuation were low. The establishment of additional county high schools is no longer authorized by law. A list of Montana county high schools will be found on pages 40-41.

One-room rural schools number approximately seven hundred with an enrollment of approximately 6,400 and are not listed in the directory. However, the number of such schools in each county is indicated following the county name under "Additional Schools With 4 or less Teachers." Information regarding these schools may be obtained from the county superintendent or the State Department of Public Instruction.
